**Luciano Pederzoli Award  
first edition**

**It is with pleasure that we announce the winner of the first edition of the Prize dedicated to the memory of Luciano Pederzoli worth € 1000.00.**

**The winner is Riccardo Boscariol for having created and demonstrated his ability to influence “Car Mind Race” ( <https://carmindrace.streamlit.app> ) an original prototype game available online that works with remote mind control.**

**Attached is the announcement for the second edition of the award.**

**The scientific committee of the award**

**William Giroladini**

**Patrizio Tressoldi**

## **Luciano Pederzoli award announcement**

**Second Edition**

**Science of Consciousness Research Group ( <https://socrg.org> ), announces a prize of € 1500.00 (one thousand five hundred) dedicated to the memory of Luciano Pederzoli.**

**The prize will be awarded to individuals or groups who, in any state of consciousness, demonstrate the ability to interact remotely (without direct contact) on any biological, electronic, etc. material, with potential practical implications.**

**The verification of these abilities will be carried out and evaluated in an unquestionable manner by the scientific committee made up of: Patrizio Tressoldi and William Giroldini.**

**To participate, send personal data, e-mail and telephone numbers and a description of your mind-matter remote interaction skills, preferably with video documentation to [patrizio.tressoldi@unipd.it](mailto:patrizio.tressoldi@unipd.it)**

**The call will remain active until the prize is awarded.**
